

TRANSFORMATIONS

Trans* Film Festival Berlin

Callout: "TransFormations: Film Festival Berlin (TFFB)"

We are looking for intersectional films that explore Transgender, Inter or gender variant approaches to and/or within films.

The first **TFFB** will be held in Berlin, **October 2016**. It will be a three-day festival in which we hope to create space for films that have been systematically rejected or put aside.

Amid all the whitewashing of queer, trans*, inter, histories in mainstream media and institutions, we also want to celebrate the legacies and visions of Black, Indigenous, PoC, poor and working class, disabled folks and migrants within the make-up of queer, trans* and inter, pasts, presents and futurities.

Who We Are:

We are an organizing team of **Black, Brown, PoC, trans***, two spirit, gender fluid, gender gifted, non-binary** people who want to make a change by creating and sustaining a space for intersectional films from (but not limited to) the perspectives of Black, Brown, PoC, Trans***, two spirit, Gender fluid, Gender gifted, non-binary people.

This festival is our vision for transformations in narratives in moving images and our centering of a diverse range of voices is what makes this film festival unique.

We encourage film- and videomakers with whom our main goal resonates to contribute stories that are multi-layered.

We are currently looking for films within or beyond the following sections:

- * work related *
- * generational *
 - * family *
 - * prison *
- * borders *
- * music *
- * art *
- * experimental *
 - * sports *
 - * health *
 - * porn *
- * education *
- * accessibility *
- * animation *
